CONFIDENTIAL

- Officers of the regiment included Lieutenant Colonel Josef Motal, commanding officer; Staff Captain Balcarik, (fnu), deputy commander; Staff Captain Novak, (fnu), political officer; Captain Lukasek, (fnu), holding an undetermined position on the regimental staff; and Captain Gustav Elsner, commanding officer of an infantry company.
- 7. The regimental headquarters units consisted of a headquarters company, a reconnaissance company, a technical company and an artillery company. Only one infantry company and the heavy machine gun company of the battalion in Breclav were known. A submachine gun company, a heavy machine gun company, a heavy weapons company and an NCO school were observed in Mikulov. Soldiers in Mikulov said that another battalion of their regiment was located in Hodonin. Numerous supply runs between Breclav and Hodonin also indicated that troops of the regiment were stationed in Hodonin. The companies numbered from 30 to 50 soldiers, as many soldiers had been detached for work with coal mining and forest brigades. There were numerous BM who had previously served with the German Armed Forces.
- 8. The equipment of the regiment included German rifles, model 98-N, Czech submachine guns, models 48-A and 48-B, light machine guns, model 26, heavy machine guns, model 37, 45-mm guns, 82-mm mortars, bazookas and incendiary bottles. About 30 German field telephones and some radio sets were available. The regiment was furnished with 25 new horse-drawn vehicles in August 1950. Three trucks and three passenger cars belonged to the regiment.
- 9. In January 1950, the regimental troops practiced at battalion level at the Mesto Libava (P 50/0 07) troop training grounds. A two-week AT defense course was held in Mikulov in March 1950, the training courses taught the use of bazookas, incendiary bottles and mines. Mines were laid in a chessboard pattern, 3 or 4 meters apart. In May 1950, the regiment was reinforced by about ?,000 reservists and together with a unit from Brno it started regimental field training at the Mesto Libava troop training grounds. The first phase of that training was firing practice with live ammunition.
